Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The Amendment filed May 1, 2006 has been entered and considered. In view thereof, claims 1-7, 9, 10, 12-19, 21-30 are allowed.

6 However, upon further review of claims 32 and 33 in view of the prior art, particularly Tokutsu (US 6,479,993), the allowance of these claims is hereby withdrawn and these claims are rejected as follows.

Claim Rejections - 35 USC § 102

12 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

18 (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

24

Claims 32 and 33 are rejected under 35 U.S.C. 102(e) as being anticipated by Tokutsu. Regarding these claims, Tokutsu discloses a test procedure for a metal detector including after
30 sending a test request, passing a known stand reference object

through the detector, comparing the signals from the receiving coils at the time of this passing with a predetermined response, wherein a stage operates to modify the detection parameters, i.e., the amplification factor, if the signals detector from the receiving coils do not fall within a predetermined response tolerance range (See Tokutsu col. 4, line 66 to col. 5, line 45).

Allowable Subject Matter

Claims 1-7, 9, 10, 12-19, 21-30 are allowed for the reasons cited in prior Office Actions.
